

May 4, 2010

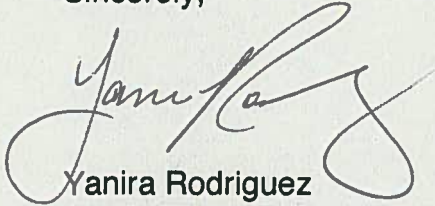

To Whom It May Concern:

Bjorn Gustafsson was an intern at Crispin Porter+ Bogusky's Boulder office from October 13, 2009 to February 26, 2010. During Bjorn's time at CP+B he worked as an Interactive Art Director Intern. He worked in a support role for the creative team as well as contributing to creative briefs for clients like Burger King and Microsoft. He also participated in group presentations and weekly intern meetings, which provided him with a view into the other departments at CP+B.

Those who worked with Bjorn found him to be a quick learner and an efficient worker. He was able to take feedback well and contribute on a variety of tasks from coding to comping and concepting.

Over all it was a pleasure hosting Bjorn. We wish him the best in his education and career.

Sincerely,

Yanira Rodriguez  
Talent Scout
